

WHY OPTICARE?

The Next Generation in Visual Health

With over 2 million covered benefit lives, OptiCare is one of the largest providers of eye care services in the nation. We have set the standard in the eye care industry for quality and service.

- OptiCare leads the industry in innovative visual health solutions.
- OptiCare's affordable vision care programs are designed for flexibility. We work with our clients to address their unique benefits needs.
- OptiCare provides its clients three (3) vision plan funding mechanisms. Fully Underwritten, Administrative Services Only and Voluntary Section 125 funding arrangements are available.
- The OptiCare nationwide accessible network includes both independent providers as well as retail optical providers.
- OptiCare focuses on unparalleled quality and service. Our providers are carefully credentialed and must meet nationally accepted managed care guidelines. Our world-class service is the foundation of our organization. Our provider and patient satisfaction results are unequalled.
- OptiCare provides hassle-free online benefit management for its clients. We provide enrollment, administrative support, benefit information, eligibility, provider directories, claim tracking, out-of-network forms, member EOB's and more.

WHY OPTICARE? Because we have an unceasing commitment to exceptional quality and value. This commitment provides us with a unique advantage over other vision care organizations. This advantage gives employers and their employees the vision care coverage they and their families need, at a price both the employer and the employee can afford.
